To login to the website you will have to be provided with a username and password. You can get to the login page by clicking 'Login' on the home page (or any other page):

You will be taken to the standard Wordpress login page where you will enter your username and password. Click the 'Remember Me' box so you won't have to login each time you visit the site.

Once you've logged in you will have a toolbar at the top of the webpage. The presence of this toolbar will tell you whether or not you're logged in. This is a quick way of adding a new post, changing your user details, etc. You can also log out of the site.
